**5425 WARNER RD, UNIT 7, VALLEY VIEW**

***DIRECTIONS ON BACK OF NOTICE***

**\*\*PLENTY OF FREE PARKING IN BACK LOT OF UNION HALL\*\***

**\*\*REFRESHMENTS SERVED\*\***

- Everyone that participates in the blood bank will receive a mini physical exam from the American Red Cross which can help detect otherwise unknown health problems such as high blood pressure or symptoms of other illnesses which may have gone undetected.
- Every two seconds someone in the United States needs blood. The one pint of blood that is given during each donation process can save up to three lives. This means that if each member that attends the blood bank is able to donate one pint of blood, roughly 6,000 lives can be saved. Donating blood can not only help one of five million patients in the United States that need blood every year, but in many cases it can even benefit your own health. You can donate blood every 56 days, so it is only a short wait until you can save another life!
- Less than 10% of the population gives blood, although most Americans will need a blood transfusion before the age of 72.
- Please attend this year's Blood Bank and donate blood. It is not about having the day off of work, it is about saving lives!
- You can donate blood if you are 17 years of age or older and weigh at least 110 lbs. There is no upper age limit to donate blood.
